**Made in
Sweden**
since 1983

The Company

Founded in Halmstad, Sweden in 1983, Range Servant's founder, Jordan Knez, saw a need to improve equipment for the golf industry. Using sustainability and durability as guiding principles, he took his enthusiasm for golf and technical expertise to develop Sweden's first ball dispensers, washers, and ball pickers. In the early 90's, Range Servant expanded to the United States and developed a distributor network around the world. After more than 39 years in the business, and handling nearly 30 billion balls annually, Range Servant is the market leader.

The Business

Range Servant's vision is **#1 Global Range Solution Provider.**

Range Servant exists to sell equipment and solutions that manage the picking, washing, dispensing, and tracking of golf balls. Our Customer Service, called RSS, serve the market with technical support, spare parts, installation, and project management. Each customer contact is unique, and we are always happy to assist. Range Servant offers a wide variety of accessories to round out a complete catalogue of high-quality range equipment.

Our goal is to inspire the golfer to hit more balls and to help the range owner operate a carefree and more profitable business.

BALL MANAGEMENT SYSTEM

BMS

Develop a cost-efficient and easy-to-operate range with our BMS, Ball Management System. Combining the picking, washing, and dispensing into one system, our BMS will suit any facility, from the smallest country club to the largest commercial range. Improve core business and customer relations by automating your range through our BMS IT-solutions. We have already helped golf clubs and ranges around the world operate a more carefree range through our BMS.

FULLY AUTOMATIC

Our BMS system can be purchased with a fully or semiautomatic setup, depending on your need. Using advanced PLC-coding we program our control-box to deliver balls from the storage area to all receiving units, which can be both ball dispensers and/or hoppers.

BLOWER-SYSTEM

Our blower-system, using compressed air and flexible hoses, feeds balls from the remote washing/storage area to single or multiple dispensers. Having a washer/storage area in a remote location is strategic for design and improves safety for the staff.

MULTI-STOREY SOLUTIONS

Our BMS can accommodate several storeys with ease. Since every BMS is custom made our priority is feeding balls through the system in a safe and secure manner.

Project Management

Range Servant is experienced in creating and following projects. From sales to installation, you can trust Range Servant to see your project through to completion.

DELIVERY AND INSTALLATION

PRE-STUDY

Our pre-studies are designed so that all expectations and goals are met. In the pre-study, we will look closely at your site, identify its capacity, function, and include a conceptual design to easily visualize what the result will look like. Not only do we want to deliver products to the project, but we also want to identify opportunities and reduce risks. Our experts will then create a checklist for you, with all the correct logistical and technical specifications so that nothing is left to chance once we are ready to install our products. If you decide to use us as your supplier, we will subtract the cost of the pre-study from the placed order resulting in no extra cost to you.

If you decide to use another supplier, the pre-study that you have purchased will be a valuable tool for your future decisions.

For more information about the cost of a pre-study, call us at +46 (0)35 10 92 40 or send an email to: sales@rangeservant.com

supplier for Topgolf**
Entertainment
Group.

BALL MANAGEMENT SYSTEM

How our BMS works

1 CONTROL CABINET

Automated or manual with sophisticated programming to fit the facility.

2 DITCH

2m-6m in length, both wet/dry, Ditch sensors start the BMS.

3 DITCH ELEVATOR

Feeds balls into the washer.

4 WASHER

Starts automatically when ditch elevator activated.

5 HOPPER ELEVATOR

2.3m high and transports washed balls into the Hopper.

6 HOPPER

Stores balls and available in several sizes from 15,000-50,000 balls.

7 BLOWER-SYSTEM

Receives balls from Hopper and blows them to the receiving units.

8 RECEIVING UNITS

Hoppers/Dispensers receives blown balls - can be set to automatically call for balls when the ball-level is low.

Because no two ranges are the same, we take pride in creating a **customized solution just for you.**

8 RECEIVING UNIT

WHY RANGE SERVANT?

We have been building ball dispensers since 1983 and are, today, the most sold in the world. We take pride in our craftsmanship and are always looking to improve our products. Range Servant machines are long lasting when maintained properly.

If you already have a Range Servant flat top Ball Dispenser and are looking to upgrade, we suggest that you purchase a cone top for additional capacity.

#	ART. NR.	PRODUCT INFO	COMPATIBLE WITH	PRE-ASSEMBLED	NO. OF BALLS
1	DBM0000	Cone top	RS-4	NO	+ 2,000 balls
1	117000	Cone top	Ultima 8, RS-8	NO	+ 4,000 balls
1	147000	Cone top	RS-11	NO	+ 7,000 balls

BALL WASHERS & ELEVATORS

Our washer-elevator system is robust, easy-to-use, and allows the operator to automate the process of washing balls and filling the dispenser.

Range Servant has trusted our partner, AB Halmstad Varmförzinkning, for galvanizing our washers over the last 30 years. Our washers are dipped in Molten Zinc, which produces a multi-layered coating of zinc-iron alloy, resulting in a long-life, rust-free and corrosion resistant product.

Washers

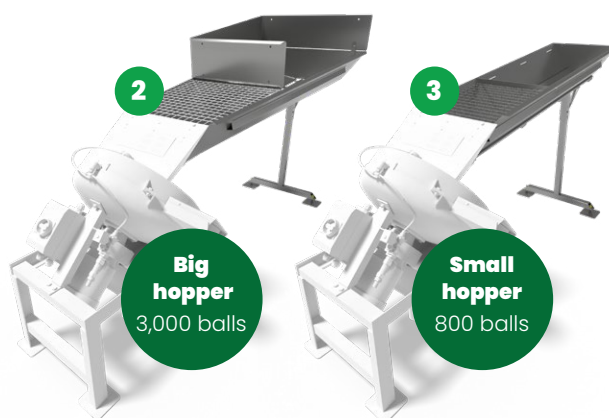

The Range Servant washer is a testimony of true craftsmanship. Built to last and with few moving parts, this unit will add value to your driving range for years to come. Our washers come in three models: BT-1950 is the perfect washer for medium to bigger ranges and BT-1300 for smaller ranges. Pick the hopper of your choosing and create a complete washing solution. The BT-1000 is a stand-alone unit with a built-in hopper that doesn't require constant water flow.

Requirements: water supply connection 1/2", drain 50 mm, 230V electricity

Hoppers

Our Hopper trays, which hold 800-3,000 balls, are made of the highest quality galvanized steel. No matter the number of balls that are picked daily, you can be assured that the Range Servant washer will stand up to any range.

Dimensions (mm) & weight:

BT-1300 with small hopper	H 1,000	W 600	L 1,807	75 kg
BT-1300 with big hopper	H 1,180	W 690	L 2,035	81 kg
BT-1950 with small hopper	H 1,000	W 647	L 1,846	86 kg
BT-1950 with big hopper	H 1,180	W 690	L 2,073	100 kg
BT-1000	H 826	W 639	L 1,282	67 kg

#	ART. NR.	TYPE	CAPACITY	BALLS/HOUR
1	220000	Ball Washer BT-1950	Add hopper	24,000
-*	WGM0000	Ball Washer BT-1300	Add hopper	12,000
2	970047	Big hopper (XL)	3,000	
3	221201	Small hopper	800	
4	WBT0001	Stand-alone Ball Washer BT-1000	700	20,000

*Looks like 220000, but a little smaller.

Pre-Soaker

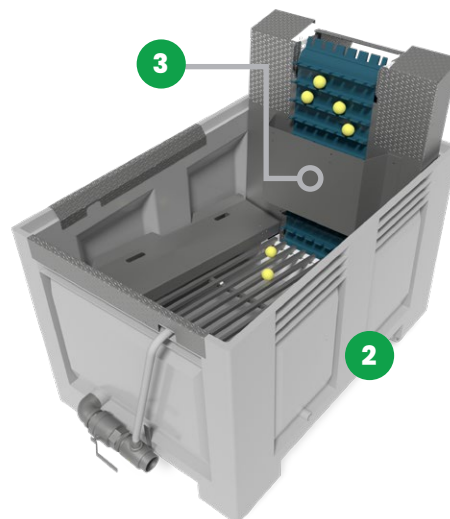

Designed with the muddy season in mind, our pre-soaker loosens deeply embedded and caked-on dirt before the balls are lifted by the elevator into the BT-1950 or BT-1300 ball washer.

- Rust-proof aluminum and stainless steel elevator for years of rust-free functionality
- Perforated belt design keeps water in the bin and the balls on the belt
- Speed control belt drive adjustable to feed any ball washer
- Removable interior grid system allows for easy maintenance and cleaning
- Durable Polymer, 4,000 ball capacity bin

Dimensions (mm): H 915, W 800, L 1,335

Weight (kg): 103

Requirements: water supply connection 1/2", drain 50 mm, 230V electricity

Elevators

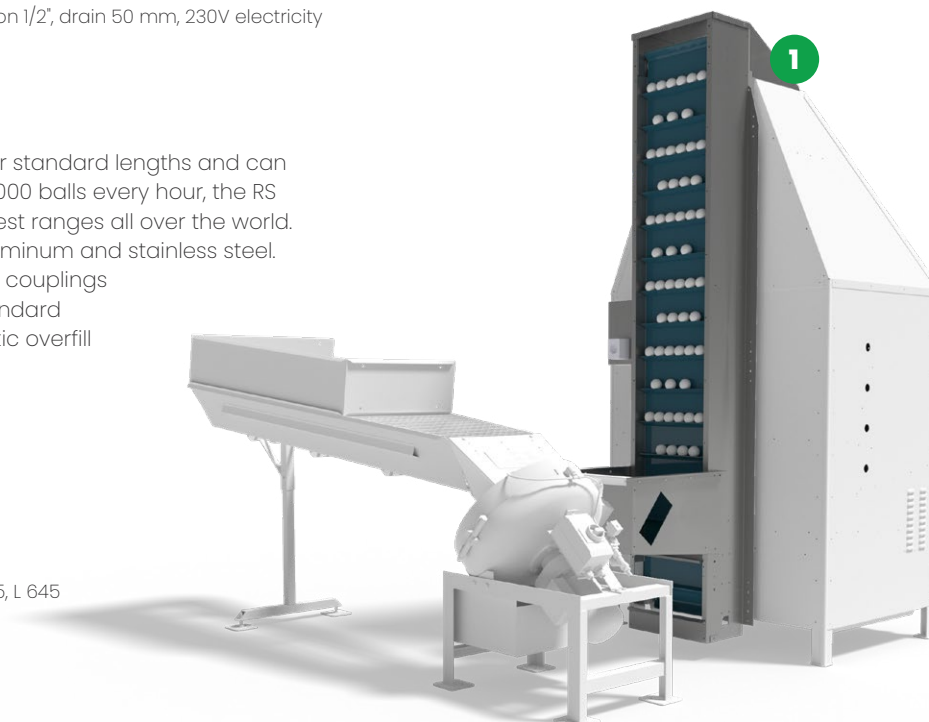

The RS Elevator is available in four standard lengths and can also be customized. Carrying 30,000 balls every hour, the RS Elevator can be seen at the busiest ranges all over the world. It is constructed of rust-proof aluminum and stainless steel. With no failure prone bearings or couplings maintenance is negligible. All standard elevators come with an automatic overflow protection system.

- 500+ balls per minute
- Aluminum and stainless
- Custom built on request
- Automatic Overflow Protection

Dimensions (mm): H 1,522–2,345 W 455, L 645

Weight (kg): 40–50

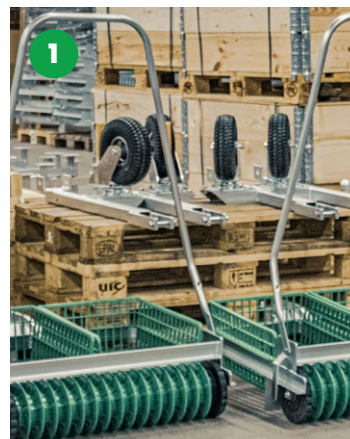

Requirements: 230V electricity

BALL PICKERS

Range Servant Ball pickers are built stronger than other pickers in the same class. We use the highest quality, thick gauge aluminum and galvanized steel to ensure long-life. With the highest capacities on the market and the ability to drive in forward and reverse, out pickers stand up to the busiest ranges with the toughest terrains.

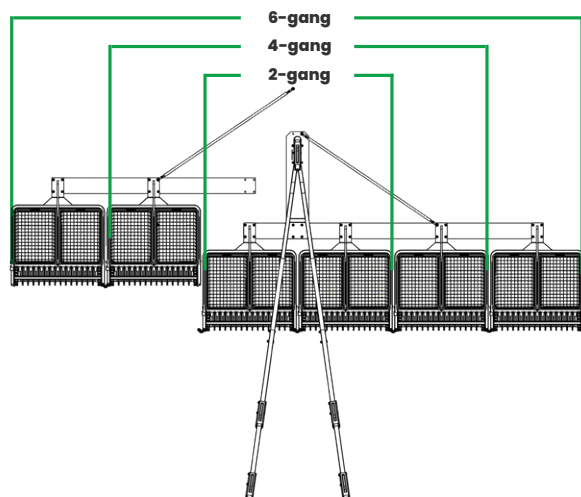

Ball Picker Light

- Rust-resistant aluminum and steel
- In-line design allows for driving forward and in reverse.
- High capacities – 1,600–4,800 balls
- Light weight flexible design
- No failure-prone elbow fittings
- Flotation tires for a smooth stable ride
- Multiple flex-points for varied terrain
- Adaptable to any cart or vehicle
- Unique Multiflex discs

2, 3, 4, 5, 6-gang

The light frame can be purchased in 2, 3, 4, 5 & 6-gang versions.

Standard is 3 & 5-gang

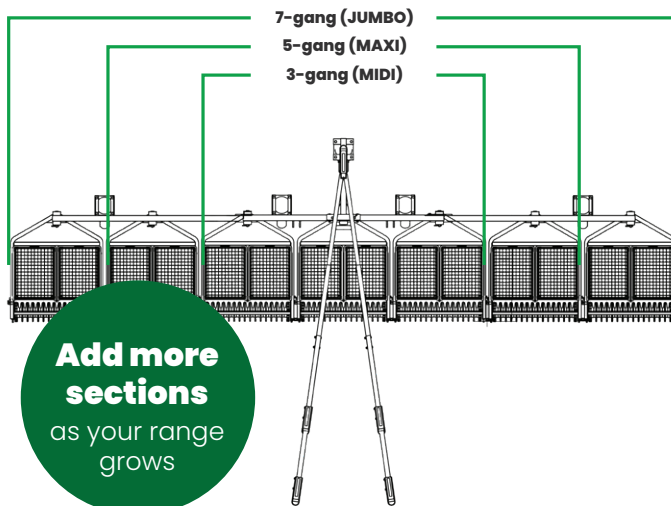

Ball Picker Heavy Duty

- Fully galvanized high grade steel
- In-line design allows for driving forward and in reverse.
- High capacities – 2,400, 4,000, 5,600 balls
- Greasable pillow block bearings and caster fittings
- Flotation tires for a smooth stable ride
- Adaptable to any cart or vehicle
- Multiple flex points for varied terrain
- Flotation tires

3, 5, 7-gang

The Heavy Duty frame can be purchased in three sizes, 3-gang, 5-gang & 7-gang and can be upgraded from 3–5, and 5–7.

Standard is 3 & 5-gang

RELOX ROBOTICS™

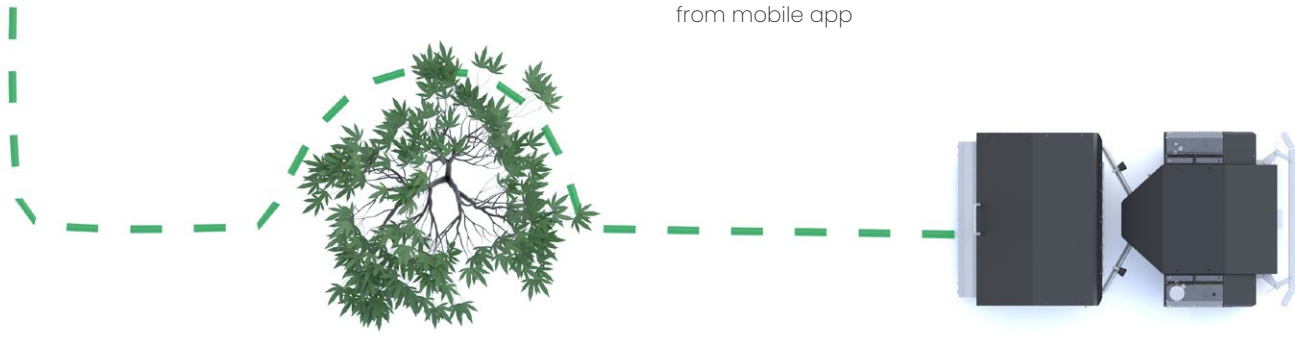

ROBOT PICKER

GOLF BALL PICKING SERVICE

Automate your range and increase customer satisfaction with our Robot Picker by Relox Robotics. Using a high precision GPS, there is no need for perimeter wire, which will result in picking more golf balls per round, compared to the competition. For a low monthly fee, our support team will always monitor the robot, which will create a carefree range.

Features and Benefits

- Picking accuracy of 2 cm
- 600 picked balls / round – 21,000 picked balls / 24 hrs
- Two picking levels, high intensity and full coverage
- Smart path planning
- No limited area
- Less labor intensive for employees
- Reduced fuel costs
- Reduced labor costs
- Can be monitored and started/stopped from mobile app

balls per day**

BALL MANAGEMENT SYSTEM

Ditch systems

Range Servant has two different ditch solutions, a 2-meter dry ditch modified for our robot picker and a 6-meter wet, concrete ditch that works with both the robot- and ordinary ball picker.

Both ditches require advance preparation of the ground before installation. The 2-meter robot ditch is plastic and ready to install when delivered. The 6-meter ditch needs to be casted-in-place before installation. Your Range Servant sales professional will talk through the preparation options when placing an order.

With regular daily maintenance, both ditches will have a long life-expectancy; the robot ditch lasting 15-20 years and the cast ditch 50 years. The ditches come with plates, a water-resistant elevator, ditch sensors and depending on the control cabinet, they can be manual or automatic. This is important, as installing ball ditches will spare your personnel from heavy lifting and remove routine work, so that they can focus on more important tasks.

#	ART. NR.	TYPE	INFO
1	1000422-TL	Part 1 – the ditch	
1	1000422	Part 2 – the elevator + plates	
1	1000450	Part 3 – electrical box for ditch	Automatic start and stop

For printing on the cards please contact us and we'll send a quotation

TOKENS & COINS

Range Servant is the only range company that makes its own tokens. This means you will never get a token from an arcade, laundromat, or a nearby competitor.

All Range Servant machines are sold with a token Acceptor. We believe that having a system that doesn't rely on a constant Internet connection is a great backup and will help keep up the operation. All customers are free to choose which tokens they want for their club, good thing is that we also keep track for you so you don't have to worry.

- Sell one token for a large, not three
- Dispense ANY ball count for ALL tokens
- Buy fewer tokens
- Curb large bucket sharing and hoarding

#	ART. NR.	PRODUCT INFO	INCLUDED IN THE PACKAGE
1	107702	Mechanical coin acceptor 1 €	
1	107703	Mechanical coin acceptor 1 & 2 €	(package of 500)
1	107704	Mechanical coin acceptor 2 €	(package of 500)

Above nickel-plated tokens available also in brass.

PREMIUM LIGHTING DESIGNLIGHT

OPEN DAY & NIGHT

Our modular floodlights illuminate the entire ball path, giving the golfer an accurate feedback on their swing, compared to losing sight of the ball in the dark. The robust construction and high brightness enable optimum light scattering and good stability for every illumination requirement. Our lighting solutions are based on your needs, always taking the environment into consideration.

Here are some of the advantages:

- Increased opening hours and occupancy
- Reduced number of lamps required for optimal illumination
- Swedish design
- 7-year warranty
- Light spreads evenly throughout the entire driving range.
- Highest impact resistance IK10, protected against 20 joules on impact (vandal-proof).

#	ART. NR.	PRODUCT INFO
1	1000892	Modular Floodlight 300W
2	1000893	Modular Floodlight 450W
-	1001071	Lens 25° DB-790 to modular headlights 105-115 lm / w
3	1000895	In-bay lighting, LED 230V - 25m
4	1000896	Cable for In-bay lighting, LED 230V - 3m

RANGE SERVANT INSTALLATION

GET IT RIGHT

When you invest in our products, our technicians and support team will assist in getting you started. No matter how large or small the project, we want to make sure you're comfortable using our equipment.

Our team is amongst the most knowledgeable in the golf-business, so don't hesitate to contact us at:

sales@rangeservant.com

RSconnect
powered by RANGE SERVANT

SIMPLY A SMARTER DRIVING RANGE

CAREFREE RANGE

We are passionate about helping the Range Operator deliver a great experience. RSconnect will notify you when problems arise, reducing downtime, helping you focus on the golfer and their enjoyment of the game.

RANGE INTELLIGENCE

Improve your Range Intelligence with our RSconnect Smart Digital Platform. With a Dashboard, showing important KPIs, such as balls dispensed, payment channels and service history, you will have the latest statistics to make smart decisions.

RSconnect comes loaded with features that will give the range owner great business insights. RSconnect will send regular program updates that meet the customer's needs and allow for the operation of a Carefree Range.

GENERAL TERMS AND **WARRANTY**

PURCHASE AND SALE

A binding Agreement for the sale and delivery of the Deliverables shall only be considered entered into when Range Servant has confirmed an order in writing or when Range Servant has performed the delivery of the Deliverables.

The Customer may not, without prior written approval from Range Servant, cancel an order after it has been approved by Range Servant. Should such approval be granted, the Customer shall reimburse Range Servant for all possible costs and expenses that Range Servant is caused by the cancellation.

DELIVERY

Range Servant shall make delivery of the Deliverables to the destination stated in the Agreement. Unless otherwise agreed in writing, the delivery of products is made Ex Works (determined in accordance with the INCOTERMS in force at the date of the Agreement).

All dates stated for delivery shall be considered estimates and Range Servant shall not be liable for any losses or damages suffered by the Customer due to any delay in delivery of the Deliverables, regardless of cause. Range Servant shall however immediately notify the Customer in the event that Range Servant can reasonably anticipate that the delivery will not take place on the stated delivery date.

PRICES AND PAYMENT

All prices payable for the Deliverables shall be as stated in the Agreement. Unless otherwise agreed in writing prices are exclusive of VAT and other applicable taxes and duties.

If Range Servant's costs for the Deliverables have changed on or after the delivery date compared with the time of the Agreement's conclusion as a result of changed prices on third party components of the Deliverables, customs duties or other levies outside the control of Range Servant, Range Servant has the right to adjust the price of the Deliverables accordingly.

Unless otherwise is agreed in writing, payment shall be made within thirty (30) days of the date of the invoice.

Ownership to the Deliverables will transfer to the Customer upon full payment.

In the event of late payment, Range Servant is entitled to default interest according to applicable law on any unpaid amount from the due date until full payment is made.

WARRANTY

Range Servant warrants that all Deliverables conform with all agreed terms and specifications and comply with all mandatory legal requirements. Supplier furthermore warrants that the Deliverables are free from defects in design, materials and workmanship. Supplier also warrants that services performed as part of the Deliverables will be carried out with all reasonable care and skill, and be of sound workmanship.

The warranties of Range Servant (as stated above) shall be in force until twelve (12) months from the date of delivery to ultimate Customer, however never longer than 24 months from shipment from Range Servant.

Any Deliverables deviating from the warranties set out in the Agreement, any agreed specifications or these Terms are deemed "Defect".

The Customer shall inspect the Deliverables upon delivery and notify Range Servant in writing of Defects in the Deliverables as soon as possible thereafter.

In case of Defects in the Deliverables during the warranty period, Range Servant shall, at its own choice and expense remedy the Defect by either repair, redelivery, or reduction of the purchase price with an amount reasonable given the severity of the Defect. These remedies are the exclusive remedies available for the Customer in case of Defects.

Range Servant's liability does not extend to (i) Defects caused by Customer's use of any Deliverables with equipment, accessories, or software other than approved by Range Servant, (ii) Defects resulting from alterations or interference with the Deliverables by the Customer without Range Servant's consent, (iii) Defects resulting from viruses or other external assaults insofar as such were not introduced through Range Servant's negligence, or (iv) Defects caused by a third party in any other manner or through circumstances beyond Range Servant's control such as faults in equipment, accessories or software which is not included in the Deliverables.

The Customer loses his right to demand action from Range Servant due to the Defect if the Customer does not notify Range Servant as soon as possible after the Defect has been, or should have been, discovered.

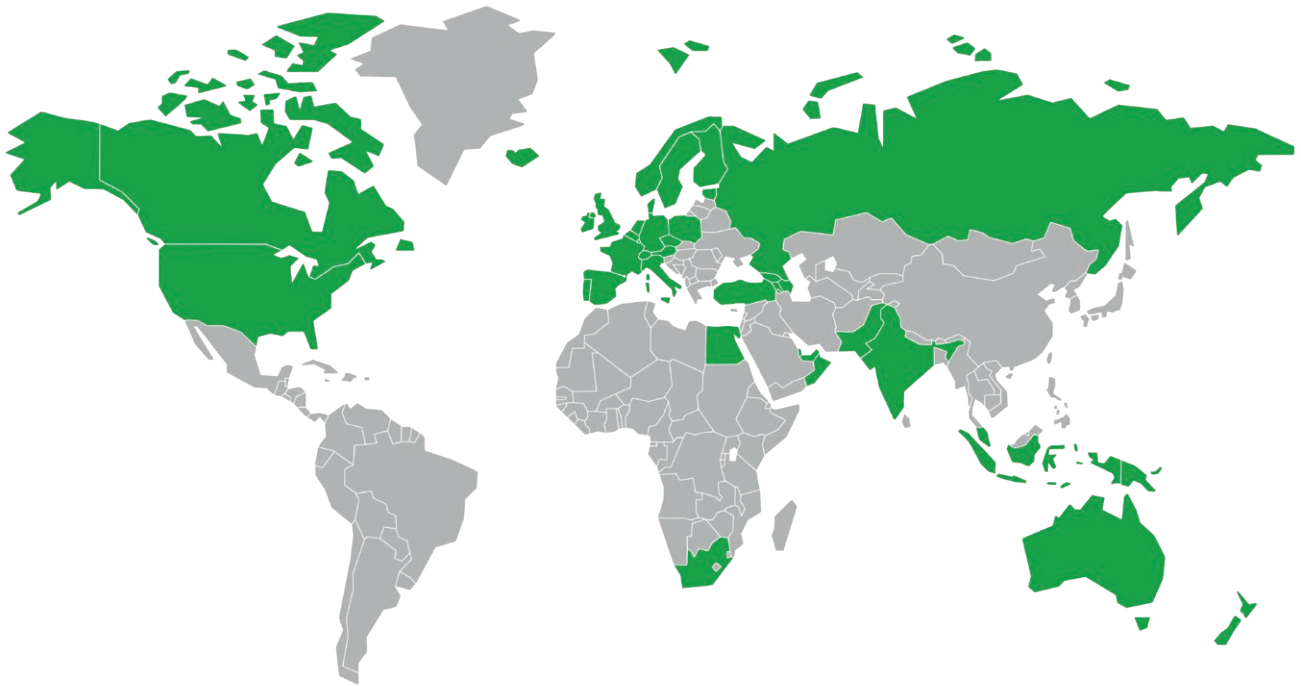

To the extent the Deliverables consist of third-party products (hardware and/or software), the warranty provisions regarding such third-party products shall take precedence over the warranty terms set out in these Terms and apply to such part of the Deliverables.
